Ahmed's story

UAE

48 years old

John Hopkins hospital

Ahmed went for a routine check-up and doctors detected cancer. However, the doctors were unable to make a firm diagnosis. Uncertain and worried, Ahmed called MetLife for a second medical opinion. Doctors confirmed that he had cancer and recommended John Hopkins (in the USA) as the best hospital for treatment. Ahmed then underwent a bone marrow transplant and chemotherapy for 3 months in the US. Fortunately, he no longer faces a terminal diagnosis and is with his family getting better every day.
