

The gutsy challenge

Gut bacteria can have a direct effect on your health, energy levels, and even your moods or sense of well-being.¹ *The Gutsy Challenge* was created to help you focus on some basic changes you can make to help cultivate a healthy gut. It's a four-week challenge. Each week, you focus on one area of your life that affects gut health. Pick at least one lifestyle change to try. Consider involving friends, co-workers, and family. They may be a great source of encouragement!

Week 1: Maintain a healthy diet²

Goal: Use at least one suggestion each day to help maintain a healthy diet!
Insert a check mark if you complete the item.

	SUN	MON	TUES	WED	THURS	FRI
Eat at least 5 servings of super foods that super charge your gut: asparagus, onions, leeks, artichokes, bananas, blueberries, beans or polenta.						
Make half your plate broccoli or other cruciferous vegetables.						
Try a fermented plant food such as kimchi, sauerkraut or tempeh.						
Have active yoghurt as a dessert alternative.
